

## Message from Our Chapter President

**Steven Rudnicki**  
September, 2010

Welcome to our updated Website. We hope you are as excited with this change as we are. This is another step in our progression of adjusting the chapter to the new reality of this economy. It is in times like this that investments become important.

Speaking of investments, your chapter chose to continue our class offerings for CPIM and CSCP in this economy. Despite less than breakeven attendance, we offered a full slate of classes and partnered with the Workforce Investment Act to support students who are currently unemployed, as they retool and invest in themselves, seeking a CPIM and CSCP certification. When this economy improves, they will rise to the top in the pool of job applicants, and your chapter helped them get there.

Another investment opportunity for you that is available is our monthly PDMs. These Professional Development Meetings are an opportunity for you to learn from the speaker of the month, and expose yourself to your counterparts in other companies, exchanging best practices that you can put to use the following morning. Aren't you worth that investment?

Check out the chapter calendar for the opportunities that your chapter has that can benefit you.
